EXECUTIVE SUMMARY

The development and promotion of small scale industries is primarily the responsibility of the respective State/Union Territory (UT) Governments/Administrations. The Central Government, however, supports and supplements the efforts of the State Governments/UT Administrations through various schemes/programmes relating to credit, performance and credit rating, infrastructural development, technology upgradation, marketing, entrepreneurial development, etc. These are implemented across the country.

Budget Allocation for the Ministry of Small Scale Industries has been increased from Rs.469.93 crore in 2006-07 to Rs.530 crore in 2007-08. The budgetary allocation is utilized for the implementation of various plan schemes implemented by DC(SSI), NSIC and the M/o SSI.

The Central Government constantly assesses and monitors the impact of liberalisation/globalisation and changing economic scenario on the growth and development of economy, including that of small scale industries (SSIs) in the country. Measures taken by the Government from time to time for the promotion and development of small scale industries and to enhance their competitiveness have helped these enterprises to compete in the global as well as the domestic market, as is evident from their growth in terms of number of units and contribution to national production, employment generation and exports.

Government has put in place several measures to help small enterprises. These include schemes of assistance for technology upgradation, infrastructure development, cluster development, adoption of modern management practices, marketing, etc. Further, steps have been taken to enhance credit flow to the SSI units, sensitise them to matters relating to global trade liberalisation and facilitate information dissemination through the use of information technology. To facilitate cost reduction, design, process-modification and product diversification to make the Indian SSI products competitive, the Central Government has modernised its Process-cum-Product Development Centres (PPDCs) and Tool Rooms. In addition, the field offices of Small Industries Development Organisation (SIDO), i.e., Small Industries Service Institutes (SISIs) have set up Technology Resource Centres (TRCs) to advise and enable the SSIs to upgrade themselves so as to compete in the global market.

With a view to improve the contents, delivery, mechanism, implementation, etc. of the Schemes, evaluation studies were recently conducted/are being conducted of the following schemes/subject of the Ministry of SSI.

(i) Integrated Infrastructural Development (IID) Scheme;
(ii) Credit Guarantee Fund Scheme;
(iii) Credit Linked Capital Subsidy Scheme
(iv) Studies of SISIs/Br. SISIs;
(v) Functioning of PPDC Meerut;
(vi) Causes of incidence of sickness in the Small Enterprise Sector
(vii) National Programme for the Development of Lock Industry
(viii) National Programme for the Development of Toy Industry

For the efficient disposal of Right to Information (RTI) requests the Central Public Information Officers/Appellate Authorities under the RTI Act have been nominated by the Ministry. Apart from this, the Information Facility Counter (IFC) has been working under the Ministry of SSI.

A Gender Budgeting Cell has been created in the Office of Development Commissioner (Small Scale Industries).
**Chapter I**

**Introductory note**

Ministry of SSI

1 Other Schemes (Plan Scheme)

1.1 International Cooperation Scheme

International Cooperation Scheme is an ongoing Scheme of the Ninth Plan, which is continuing in the Eleventh Five Year Plan (2007-2012). Technology upgradation, modernization and promotion of exports from SSI sector are the important objectives of the Scheme.

The Scheme encompasses following activities:-

i. Participation by Indian SSI/SEs in exhibitions, fairs and buyer-seller meets with international component.

ii. Deputation of SSI/SE business delegations to other countries for exploring new areas of technology infusion/upgradation, facilitating joint ventures, improving market of SSI/SE products, foreign collaborations etc.

iii. Holding international conferences and seminars on topics and themes of interest to SSI/SE.

1.1.2 Surveys, Studies and Policy Research

Under the scheme, studies are entrusted to independent agencies, institutions, consultancy firms etc., with financial assistance from the Ministry. The main objectives of the scheme are – (i) to regularly/periodically collect relevant and reliable data on various aspects and features of micro, small and medium enterprises (MSME), (ii) to study and analyse, on the basis of empirical data or otherwise the constraints and challenges faced by MSME as well as the opportunities available to them in the context of liberalisation and globalisation of the economy, and (iii) to use the results of these surveys and analytical studies for policy research and designing appropriate strategies and measures of intervention by the Government.

1.1.3 National Entrepreneurship Development Board (NEDB)

This is an ongoing scheme from the Ninth Plan, which was continued in the 10th Plan. The main objective of the scheme is to promote entrepreneurial climate and inculcate entrepreneurial values among the students and to motivate students to take up entrepreneurship as a career. Recent review of the scheme shows that continuation of the NEDB has become unnecessary and the efficacy of the individual scheme components has not been optimal. Government has, therefore, decided to abolish the NEDB and recast the scheme contents/components with a view to sharpening their focus and improving their impact. Therefore, for the Eleventh Plan no allocation is proposed for the ongoing National Entrepreneurship Development Board (NEDB) scheme. Rather, the
scheme is being replaced by a new scheme to be now known as the Scheme of “Promotion and Hand-holding of Micro and Small Enterprises”.

1.1.4. Training Institutions

(a) Strengthening of Training Infrastructure of Existing and New Entrepreneurship Development Institutes.

Entrepreneurship development is one of the key elements for promotion of Micro and Small Enterprises, particularly, the first generation entrepreneurs. Hence, entrepreneurship development has been one of the priorities in countries world over. Governments make consistent and concerted efforts to strengthen and revitalize the promotion of entrepreneurship. The Ministry of Small Scale Industries promotes the development of small scale industries in the country with the objective of creating self-employment opportunities and upgradation of management and technical skills of existing and potential entrepreneurs. The scheme of Entrepreneurship Development Institutes (EDIs) was launched in 1992-93 to provide financial assistance for strengthening training infrastructure of the existing and new entrepreneurship development institute at State/UT level. The scheme envisages providing financial assistance to State-level existing and proposed institutions meant for supporting entrepreneurship development and self employment activities training, consultancy and research in tune with the policy measures announced by the Government of India on promoting and strengthening of micro and small enterprises. The Central assistance is expected to be only catalytic and supplementary to the contributions and efforts of the States/UT Governments and other agencies, namely, institutions engaged in entrepreneurship development, technical educations institutions, management institutions and financial institutions, and is expected to augment the existing entrepreneurship development training capacity in the country. The financial assistance provided is only catalytic and supplementary to the contributions and efforts of the State/UT government and other agencies involved in the programme. The financial assistance is for specific needs like building, training aids/equipment and other support services, on matching basis, i.e. 50% of the cost, restricted to Rs.100.00 lakh, in each case.

(b) National Institute of Small Industry Training (NISIET), Hyderabad.

NISIET, formerly known as Central Industrial Extension Training Institute (CIETI), was set up in 1960 at New Delhi as a Department of Central Government under the Ministry of Commerce and Industry. Its main objective was to provide training to the personnel of the Central Small Industries Organisation as well as the Departments of Industries of the State Governments. Subsequently, in 1962, it was shifted to Hyderabad and converted into an autonomous society. In 1984, the Institute was renamed as National Institute of Small Industry Extension Training (NISIET). NISIET’s role has benefited not only the Indian micro, small and medium enterprises (MSMEs) but also those in other developing countries and helped in promoting self-employment and enterprise development. The Institute is constantly evolving with time, modifying its focus with the emerging needs of MSMEs and providing them solutions in the form of consultancy, training, research, and education.
The academic activities of the Institute are organized through centers of excellence focusing on specific needs of the SMEs. The Institute is self-sufficient in meeting its recurring expenditure through internal resource generation from 2001-02 onwards. However, the Institute continues to receive grant for meeting the capital expenditure.

(c) National Institute for Entrepreneurship and Small Business Development (NIESBUD), Noida

NIESBUD was set up in 1983 as an apex institution in the field of entrepreneurship development to promote, support and sustain entrepreneurship and small business through training, education, research and consultancy services. The major activities of the Institute include, evolving model syllabi for training various target groups, providing effective training strategies, methodology, manuals and tools, facilitating and supporting Central/State Governments and other agencies in executing programmes of entrepreneurship and small business development; maximizing benefits and accelerating the process of entrepreneurship development; conducting programmes for motivators, trainers and entrepreneurs which are commonly not undertaken by other agencies and organising activities which help in developing an entrepreneurial culture in the society. The Institute helps other Entrepreneurship Development Institutions in various ways, such as developing syllabi in entrepreneurship for different target groups, training of faculty and developing training aids. During April, 2004, the Institute has shifted to its new campus at Noida, Uttar Pradesh.

The revenue grant to the Institute is being progressively reduced and it being encouraged to attain self-sufficiency at least to meet its revenue expenditure.

d. Indian Institute of Entrepreneurship (IIE), Guwahati

The Indian Institute of Entrepreneurship (IIE) was set up at Guwahati in 1993. It took over NISIET’s NER Centre from 1st April 1994. Over a period of 12 years, the Institute has expanded its canvas not only in terms of geographical coverage but also diversifying into various areas of the activities related to socio-economic development. The Institute organises training programmes and undertakes research and consultancy services in the field of promotional small industry and entrepreneurship. Having developed the competency, professional expertise in entrepreneurship development and management, the Institute has diversified its field of training into various sectors and it can rightly be termed as a Centre for MSME Development in North-Eastern Region.

New Scheme

1.2.1 Promotion and Hand-holding of Micro and Small Enterprises

World over, micro and small enterprises (MSEs) are recognised as an important constituent of the national economies, contributing significantly to employment expansion and poverty alleviation. Therefore, promotion of entrepreneurship, handholding of first – generation entrepreneurs and enhancement of competitiveness of operating MSEs are important, particularly for developing economies, especially in the context of rapid changes brought about by globalisation.
With these objectives, the Government of India has been implementing several schemes and programmes. One of these, termed the ‘National Entrepreneurship Development Board (NEDB) Scheme’, included components like assistance for setting up ‘Entrepreneurship and Business Development Centres (EBDCs)’ to encourage students to adopt entrepreneurship as a career option, setting up business incubators to help start-up business of first generation entrepreneurs; and for organising workshops/seminars/conferences, etc., to deliberate on issues relating to entrepreneurship development.

Recent review of this initiative shows that continuance of the National Entrepreneurship Development Board has become unnecessary and the efficacy of the individual scheme components has not been optimal. Government has, therefore, decided to abolish the NEDB and rename and recast the scheme contents/components, with a view to sharpening their focus and improving their impact. The scheme, to be now known as the Scheme of “Promotion and Hand-holding of Micro and Small Enterprises”, will have the following components and will be implemented in tandem with the relevant existing schemes and programmes:

(i) Assistance to eligible Universities, Colleges, National Institutes of Technology, revitalised Industrial Training Institutes and Polytechnics operating in public-private partnership mode, etc., for establishment of **Entrepreneurship and Business Development Centres (EBDCs)** – to facilitate **initiation and education of college students in entrepreneurship as a career option**;

(ii) Entrepreneurship Development Programme (EDP) in Backward/Rural Areas and EDP for Scheduled Caste / Scheduled Tribe / Minority Category Trainees;

(iii) Assistance to existing Entrepreneurship Development Institutes (EDIs) at the National and State levels, mature EBDCs, capable association of MSEs / SSIs, Special Purpose Vehicles (SPVs) set up for cluster development involved in entrepreneurship development and Central/State Government/Public Sector Enterprises involved in promotion and development of MSEs, to set up **Cells for Support and Promotion of MSE (CSPMSE)**, through hand-holding and mentoring of the successful trainees of the EDPs/SDPs by facilitating their access to programmes/schemes like the Rural Employment Generation Programme (REGP), Pradhan Mantri Rozgar Yojana (PMRY) and other schemes **thus integrating and leveraging the existing programmes/schemes**;

(iv) Organising workshops/ seminars/ conferences relating to entrepreneurship development and promotion of SMEs; and

(v) Assistance [drawing upon or leveraging the funds and other provisions of the Small Industrial Cluster Development Programme (SICDP), Scheme of Fund for Regeneration of Traditional Industries (SFURTI), etc., as] to Lead Agencies to build their own technical capacity to function as effective institutions for promoting cluster development of established first generation MSEs.
The above components of the proposed new scheme have been worked out after
detailed consultations with the stockholders. EFC/SFC note for approval of this scheme is
under preparation.

For this scheme, a provision of Rs.7.50 crore has been made in BE:2007-08.

1.3 SMALL INDUSTRIES DEVELOPMENT ORGANISATION (S.I.D.O.)

Most of the programmes and schemes of the Ministry of Small Scale Industries
for the development of micro, small and medium enterprises are implemented through
Small Industries Development Organisation. SIDO an attached Office of the Ministry of
Small Scale Industries is headed by an Additional Secretary & Development
Commissioner (Small Scale Industries). The major activities of SIDO include the
following:-

- SIDO is an apex body for assisting in policy formulation and coordinating and
  monitoring implementation of Schemes/programmes for promotion of MSMEs.
- SIDO liaises with the Central Ministries, Planning Commission, State
  Governments, financial institutions, voluntary agencies and other organizations.
- SIDO provides a comprehensive range of facilities and services, tooling facilities,
  marketing assistance, etc. through a network of:-

  - 30 Small Industries Service Institutes, SISIs, and 28 Branch Small
    Industries Service Institutes (Br. SISIs)
  - 4 Regional Testing Centres, (RTCs) and 7 Field Testing Stations
    (FTSs).
  - 10 Tool Rooms and 2 Central Footwear Training Institutes, CFTIs
  - 6 Product-cum-Product Development Centres, (PPDCs)
  - Credit Guarantee Fund Trust to operate Credit Guarantee Scheme.

SIDO provides secretarial assistance to the Small Scale Industries Board which is
chaired by the Minister (SSI&ARI).

SIDO has been playing a constructive role in strengthening MSME sector by
providing it with a number of support services through various schemes and programmes.

These include techno-economic and managerial consultancy, assistance for
establishing Integrated Infrastructural and Common Facility Centres, Consultancy and
Financial Assistance for Technology Upgradation and Modernisation, human resource
development and quality testing facilities through a variety of schemes/programmes. It is
gradually orienting itself into a Technology Resource Hub through the web and computer
networking.

1.4 MAJOR PROGRAMMES /SCHEMES

Recognizing the enormous contribution of the micro and small enterprises
(MSEs) in industrial production, providing widely disbursed employment, equitable
regional development as also their locational flexibility and adaptability in the face of the
competition, a major promotional package for the sector has been formulated which, inter
alia, include issues concerning i) Legislative back up; ii) Credit support iii) Fiscal
measures; iv) Support for cluster based development v) Technological and Quality Upgradation Support, vi) Marketing Support vii) Support for Entrepreneurial and Managerial Development viii) Empowerment of Women owned enterprises; and ix) Strengthening of Data Base of MSME Sector. After examining the issue in detail and with the approval of Planning Commission, the following Central Sector Schemes (modified and merged) are implemented:

1.5 QUALITY OF TECHNOLOGY SUPPORT INSTITUTIONS AND PROGRAMMES

This Scheme consists of the following sub-components:-

1. Tool Rooms & Technical Institutions;
2. Credit Linked Capital Subsidy Scheme;
3. ISO 9000/14001 reimbursement Scheme;

Support for Entrepreneurial and Managerial Development of SMEs, Design Clinic Scheme, Enabling Manufacturing Sector to be Competitive through Quality Management, Marketing Support/Assistance to SMEs, etc. These Schemes are being designed to enhance the competitiveness and efficiency of the units. Vertical Shaft Brick Kiln (VSBK) and Technology Mission are the other two components of this Scheme.

1.5.1 Tool Rooms & Technical Institutions

The Tool Room Scheme consists of equipping 10 existing Tool Rooms and a component Scheme of Central Assistance to States for setting up Mini Tool Rooms. These Tool Rooms & Training Centres provide production, training and consultancy services in the areas of tool engineering, i.e., facilities for production of tools, moulds, dies, jigs & fixtures, etc., and providing skilled manpower to industry. These services help the industry become more productive & competitive.

The plan Scheme also consists of funding the activities of the following field institutions by way of upgradation of equipment and machinery:

1. Electronic Service & Training Centre, Ram Nagar, Uttarakhand;
2. Centre for Development of Glass Industry, Firozabad;
3. Process-cum-Product Development Centre, Meerut, U.P.
5. Fragrance and Flavour Development Centre, Kannauj, UP;
6. Institute for Design of Electrical Measuring Instruments, Mumbai, Maharashtra
7. Central Institute of Tool Design, Hyderabad, Andhra Pradesh
1.5.2 Credit Linked Capital Subsidy Scheme (CLCSS) for Technology Upgradation

The Credit Linked Capital Subsidy Scheme (CLCSS) aims at facilitating technology up-gradation by providing upfront capital subsidy to SSI units, including agro & rural industry units (within the functional purview of the Ministry of Agro and Rural Industries) in addition to institutional finance (credit) availed of by them from banks, for modernisation of their production equipment (plant and machinery) and technology, both existing SSI units registered with the State Directorates of Industries, and new SSI units which have set up their facilities with the appropriate eligible and proven technology. The Scheme provided for 15% capital subsidy to SSI units including tiny units, on institutional finance availed of by them for induction of well established and improved technology in selected sub sectors/products approved under the schemes. The ceiling on loans under the scheme is Rs. 1.00 crore.

1.5.3 ISO 9000/14001 reimbursement

ISO-9000 Reimbursement Scheme envisages reimbursement of charges for acquiring ISO-9000/14001 to the extent of 75% of the cost, subject to a maximum of Rs.75,000/-. All SSI units with permanent registration are eligible to avail of the Scheme. The Scheme provides one-time reimbursement.

1.6. PROMOTIONAL SERVICES INSTITUTES AND PROGRAMMES

Sub-components of this Scheme are as follows:-

SIDO Officers’ Training Programme, SISIs (includes provision for Workshops/Training), RTCs/FTSs/Testing Centres by Industry Associations, MDP/EDP/Skill Development (includes for women; weaker sections and minorities; National Award (Entrepreneur & Quality); Vendor Development Programme for Ancillarisation; Support for Entrepreneurial & Management Development of SMEs; Scheme for Conduct of Tailor made courses for new entrepreneurs through select business Schools, Technical Institutes, etc.; Scheme to support 5 select universities/colleges to run 1200 entrepreneurs clubs; Scheme for capacity building, strengthening of data base and advocacy by industry/enterprises associations, Land & building for Office accommodation and residential accommodation in backward areas.; Training-cum-Product Development Centre, TDPCs’ Advertising & Publicity; SENET Project; Publicity & Exhibition includes participation in 25 exhibitions and marketing facilitation for women.

1.7 MSME CLUSTER DEVELOPMENT PROGRAMME:

The Sub-components of this Scheme are as under:-

1. Cluster Development Programme (including IID subsumed)
2. MSME Growth Poles

Cluster Development Programme (including IID subsumed)
Clusters are defined as a Sectoral and geographical concentration of micro, small and medium enterprises with inter-connected production system leading to firm/unit level specialisation and developing local suppliers of material inputs and human resources. Availability of the local market, intermediaries for the produce of the cluster is also a general characteristics of the cluster.

The IID Scheme has been subsumed in the SICDP and all the best features of the IID scheme will be covered under the cluster development.

In March 2006, the guidelines of the Small Industries Cluster Development Programme (SICDP) have been modified with a view to broad-basing the Scheme and enabling extensive interventions in selected industrial clusters in areas like technology upgradation, marketing, infrastructural upgradation, credit facilitation, establishment of Common Facility Centres, attainment of quality certification, etc. The Ministry is also servicing an Empowered Group of Ministers to synergise and oversee the on-going cluster development programmes of various Ministries for which we have received Prime Minister’s in–principle approval. Currently, various measures of interventions are being implemented in 83 clusters spread all over the country.

1.8 MSME Growth Poles

National Commission for enterprises in the unorganized sector (NCEUS) has formulated a pilot scheme of setting up 5 growth poles for the unorganized enterprises. These five pilot projects are in Chhattisgarh, Rajasthan, Kerala, West Bengal and Uttarakhal. The DPRs likely to be finalized in 2007-08 and recommendations of the Commission likely to be submitted to Government for implementation. Growth Pole projects in other states are also likely to be set up in 2007-08.

1.9 CREDIT SUPPORT PROGRAMME:

This Programme consists of the following Schemes:

1. Credit Guarantee Scheme
2. Augmentation of Portfolio Risk Fund under Micro finance Programme
3. Trade Related Entrepreneurship Assistance Development Programme for Women (TREAD)
1.9.1 Credit Guarantee Scheme

The Government introduced the Credit Guarantee Fund Scheme for Small Industries in May, 2000 with the objective of making available credit to SSI units, particularly tiny units, for loans up to Rs. 25 lakh without collateral/third party guarantees. The Scheme is being operated by the Credit Guarantee Fund Trust for Small Industries (CGTSI) set up jointly by the Government of India and SIDBI. The Scheme provides for collateral free credit facility (term loan and/or working capital) extended by eligible lending institutions to new and existing SSI units/ Small Scale Service and Business (industry related) Enterprises (SSSBEs) including Information Technology and Software Industry up to Rs. 25 lakh per borrowing unit. The guarantee cover is up to 75% of the credit subject to maximum guarantee limit of Rs. 18.75 lakh. The member lending institutions (MLI) availing of guarantee from the Trust have to pay a one-time guarantee fee of 1.5% of the credit facility (comprising term loan and/or working capital) sanctioned by the lending institution to the borrower and annual service fee of 0.75% per annum on the amount of credit facility extended by the MLI, which is covered under the scheme.

1.9.2 Augmentation of Portfolio Risk Fund under Micro finance Programme

Under the Portfolio Risk Fund (RCF) Govt. of India will provide funds for Micro Finance Programme to SIDBI. This fund would be used for security deposit requirement of the loan amount from the MFIs/NGOs. The MFIs/NGOs may avail the loan from the SIDBI for further lending on the support of the security deposit.

1.9.3 Trade Related Entrepreneurship Assistance Development Programme for Women (TREAD)

The Scheme envisages economic empowerment of women through trade relating training, information and counselling/extension activities related to trade, products, services, etc. Government grant up to 30% of the total project cost, as appraised by lending institutions, which would finance the remaining 70% as loan assistance to the applicant women. Training organisations viz., EDIs, NISIET and NGOs conducting training programmes for empowerment of women beneficiaries identified under the Scheme are provided a grant up to maximum limit of Rs.1 lakh. Training Institutions are provided need-based Government grant upto Rs.5 lakh per project for field surveys, research studies, evaluation studies, designing of training modules, etc.

1.10 MARKETING DEVELOPMENT ASSISTANCE PROGRAMME:

1. Export Promotion and MDA Scheme
2. National Campaign for Investment in Intellectual Property
3. Marketing Support/Assistance to SMEs

Export Promotion and MDA Scheme

The Plan Scheme consists of assistance for:-
(1) Participation in International Exhibitions/Fairs.
(2) Training Programmes on Packaging for Exports.
(3) Market Development Assistance for SSI exporters (SSI-MDA).

These activities help the units in better exposure and facilitate marketing of their products.

National Campaign for Investment in Intellectual Property

The project envisages enhancing awareness about the Intellectual Property Rights (IPR) to enable MSME to make informed decisions about protecting their ideas and business strategies, effective utilisation of IPR tools by MSME for technology upgradation & enhancing competitiveness, providing access to technical facilities and expertise for value addition to their business and financial assistance on grant of patent.

Marketing Support/Assistance to SMEs

Selection of units owned by women entrepreneurs will be identified, motivate and assist them to participate in exhibition under SIDO. Stall for showcasing their products at global markets and try to obtain business etc. For successful international marketing of products in their retail market, bar coding is an essential requirement. To promote adoption of bar coding of products by the MSEs, a scheme of reimbursement of 75% of the one time registration cost for bar coding is under operation. To encourage MSEs to adopt the practice of bar coding on a large scale, 75% of the annual fees (recurring charged by EAN India) will also be reimbursed as subsidy for the first three years.

1.11 UPGRADEATION OF DATA BASE

This Scheme consists of the following sub-components:-

(1) Collection of Statistics
(2) Quinquennial Census

The Associations of MSEs do not have adequate capacity to collect and interpret data relating to changes in the marketing scenario, owing to the limited availability of funds and absence of expertise in the matter. As a result, their articulation of views on specific issues concerning their product groups leaves much to be desired to strengthen their role and increase their efficiency, it is proposed that financial assistance for the secretarial and advisory/extension services of 10 selected national associations may be provided annually to the extent of Rs.5.00 lakh to Rs.20,00 lakh depending upon the size and reach of the Association. The beneficiary associations will be required to provide the regular manpower at their own cost and office space and also bear 50% of the cost of modernization of their special and equipment and training of their personnel.
Micro & Small Enterprises (MSEs) - Salient Features

The MSEs continue to play an important role in the Indian economy. The sector generates cost effective, widespread employment, thus addresses the problem of poverty and fostering inclusive growth.

According to estimates, based on the Third All-India Census of SSI (reference year 2001-02), there are about 123.42 lakh MSEs (2005-06) in the country accounting for more than 39 per cent of the total industrial production in the manufacturing sector. It provides employment to about 294.91 lakh persons (2005-06), which is second only to the agriculture.

The MSE sector has, over the years, generally recorded higher growth rate than the industry sector as a whole. Indicative physical targets and achievements in respect of production, employment and exports are given below:-

1.12 National Commission for Entrepreneurs in Unorganised Sector (NCEUS)

The Commission was set up by the Government as an advisory body and a watchdog for the informal sector with a view to fulfilling the commitment made under the Common Minimum Programme of the United Progressive Alliance Government. The Commission has been given a term of 3 years, till 19.9.2007. The Commission will recommend measures considered necessary for brining about improvement in the productivity of enterprises in unorganized sector, generation of large scale employment opportunities on a sustainable basis, particularly in the rural areas, enhancing the competitiveness of the sector in the emerging global environment, linkage of the sector with institutional framework in areas such as credit, raw material, infrastructure, technology upgradation, marketing and formulation of suitable arrangements for skill development. NCEUS has formulated a Pilot Projects of Growth Poles (based on PURA principles) for the enterprise in the Unorganised Sector.

1.13 NATIONAL SMALL INDUSTRIES CORPORATION LTD.
National Small Industries Corporation Ltd., (NSIC), an ISO 9001 certified company, since its establishment in 1955, has been working to fulfill its mission of promoting, aiding and fostering the growth of small scale industries and industry related small scale services / business enterprises in the country. Over a period of five decades of transition, growth and development, NSIC has proved its strength within the country and abroad by promoting modernization, upgradation of technology, quality consciousness, strengthening linkages with large and medium enterprises and enhancing exports of projects and products from small enterprises. With a set of specially tailored schemes, Corporation is facilitating small enterprises in enhancing their competitiveness.

NSIC operates through 7 Zonal Offices, 26 Branch Offices, 15 Sub-Offices, 5 Technical Services Centres, 3 Extension Centres and 2 Software Technology Parks and two foreign offices Dubai and Johannesburg (South Africa).

NSIC carries forward its mission to assist small enterprises with a set of specially tailored schemes designed to put them in a competitive and advantageous position.

Schemes of the Corporation

To enhance the competitiveness of small enterprises NSIC provides integrated support services under Marketing, Technology, Finance and other Support services.

Marketing Assistance

Marketing, a strategic tool for business development is critical to the growth and survival of small enterprises in today’s intensely competitive market. NSIC acts as a facilitator to promote the products of small enterprises and has devised a number of schemes to support small enterprises in their marketing efforts, both in and outside the country. These schemes are briefly described as under:–

- **Raw Material Distribution:** NSIC has made arrangements with bulk manufacturers like M/s. Steel Authority of India Ltd. (SAIL), M/s. Rashtriya Ispat Nigam Ltd. (RNIL), M/s. National Aluminium Company Ltd. (NALCO) and Sterlite group for procuring raw materials like Steel, Aluminium, Zinc and Copper etc. These arrangements are aimed to provide the raw material alongwith financial assistance as per the requirements of small enterprises.

  NSIC has also opened godowns at Tarapur, New Delhi, Faridabad and Silvassa to facilitate the small enterprises to make available the required material at ease, to bring down their inventory cost and also arranging to provide them closer to their works. In addition through such arrangements the benefit of economies are also availed by the small enterprises.

- **Consortia and Tender Marketing:** Small Enterprises in their individual capacity face problems to procure & execute large orders, which inhibit and restrict their growth. NSIC accordingly adopts Consortia approach and forms consortia of units manufacturing the same products, thereby easing out marketing problems of small enterprises. The Corporation explores the market and secures orders for bulk
quantities. These orders are then distributed to small enterprises in tune with their production capacity.

- **Single Point Registration for Government Purchase**: NSIC operates a Single Point Registration Scheme under the Government Purchase Programme, wherein the registered small enterprises get purchase preference in Government Purchase Programme, exemption from payment of Earnest Money Deposit etc. The small enterprises registered under this scheme get the following facilities:
  - Issue of tender sets free of cost.
  - Advance intimation of tenders issued by DGS&D.
  - Exemption from payment of earnest money.
  - Waiver of security deposit up to the monetary limit for which the enterprise is registered.
  - Issue of competency certificate in case the value of an order exceeds the monetary limit, after due verification.

- **Exhibitions and Technology Fairs**: To showcase the competencies of Indian small enterprises and to capture market opportunities, NSIC participates in select International and National Exhibitions and Trade Fairs every year. NSIC facilitates the participation of the small enterprises by providing concessions in rental etc. Participation in these events exposes small enterprises to international practices and enhances their business prowess.

- **Buyer - Seller Meets**: Bulk and departmental buyers such as Railways, Defence, Communication departments and large companies are invited to participate in buyer-seller meets to enrich small enterprises knowledge regarding terms and conditions, quality standards, etc required by the buyer. These programmes are aimed at vendor development from small enterprises for the bulk manufacturers.

- **Export of Products and Projects**: NSIC is a recognized Export House and exporting products and projects of small enterprises of India to other countries. The major areas of operation are:
  - Export of products such as handicrafts, leather items, hand tools, pipes / fittings, builders’ hardware etc.
  - Supply of Small Industry projects on turnkey basis.
  - Export of IT solutions from India.

- **Seminars & Intensive Campaigns**

  Intensive campaigns and seminars are organized all over the country to disseminate/propagate about the various schemes for the benefit of the small enterprises and to enrich the knowledge of small enterprises regarding latest developments, quality standards etc.

**Technology Support**
Technology is the key to enhancing a company’s competitive advantage in today’s dynamic information age. Small enterprises need to develop and implement a technology strategy in addition to financial, marketing and operational strategies and adopt the one that helps integrate their operations with their environment, customers and suppliers.

NSIC offers small enterprises the following support services through its Technical Services Centres and Extension Centres:

- Advising on application of new techniques
- Material testing facilities through accredited laboratories
- Product design including CAD
- Common facility support in machining, EDM, CNC, etc.
- Energy and environment services at selected Centres
- Practical training for skill upgradation

**Financing Schemes**

NSIC facilitates financing for small enterprises in the following manner:

**Meeting credit needs of Small Enterprises through tie-up arrangements with Banks**

One of the major challenges faced by small enterprises is inadequate access to finance due to lack of financial information and non-formal business practices. In the year 2005-06, NSIC launched a new scheme for facilitating sanction of loans for small enterprises from commercial banks. NSIC has entered into tie-up arrangements with seven banks (i.e. United Bank of India, UCO Bank, Oriental Bank of Commerce, Central Bank of India, Bank of Maharashtra, YES Bank and UTI Bank) for sanction of term loan and working capital facilities to the small enterprise as per their requirement. Such arrangements facilitate smooth credit flow to small enterprises.

**Financing for procurement of Raw Material (Short term)**

NSIC supports small enterprises by procuring and supplying raw materials like Steel, Aluminium and Copper etc. along with financial assistance as required by the small enterprises.

**Financing for Marketing Activities (Short term)**

NSIC facilitates financing for marketing activities by discounting the bills of small enterprises for supplies to the Government Department / undertakings and reputed public limited companies.

**Performance & Credit Rating Scheme for Small Enterprises**
NSIC had formulated the “Performance & Credit Rating Scheme” for small enterprises, which was launched on 7th April, 2005 by Shri P. Chidambaram, Hon’ble Union Finance Minister and Shri Mahabir Prasad, Hon’ble Union Minister of SSI & ARI.

NSIC is the implementing agency and operating the scheme through accredited rating agencies i.e. CARE, CRISIL, D&B, FITCH, ICRA, ONICRA and SMERA. The fee to be paid by the small enterprises for the rating is subsidized by the Government to the extent of 75% upto a maximum of Rs. 40,000/-. The scheme has become quite popular now and getting good response from the small enterprises.

The rating serves as a trusted third party opinion on the unit’s capabilities and credit worthiness. A good rating enhances the acceptability of the rated unit in the market and also facilitates them to make access to credit quicker and cheaper and thus help in economizing the cost of credit.

Support Services

Infomediary Services

Information plays a vital role in the success of any business. Recognizing the importance of information and its relevance to small enterprises, NSIC provides Infomediary Services to small units. Besides hosting a website (www.nsic.co.in), NSIC hosts sector specific portals for focused information dissemination. Under this scheme, small enterprises can become members and avail a number of value added services.

Software Technology Parks

NSIC-Software Technology Parks (STPs) facilitate small enterprises in setting up 100% export-oriented units for software exports. They also act as nodal point to activate software exports directly through NSIC. These STPs extend support in terms of the requisite infrastructure to the small enterprises to start business operations with a minimum lead time. NSIC established the first STP at Okhla, New Delhi in 1995 and second in Chennai in 2001. Several small enterprises have taken advantage of these parks and contributed export earnings to the exchequer.
## Chapter II

### M/O SMALL SCALE INDUSTRIES (including O/O DC(SSI) ( Rs. In crore )

CHAPTER III

Reforms and Measures & Policy Initiatives

NEW INITIATIVES DURING 2006-07

3 Micro Small And Medium Enterprises Development (MSMED) Act, 2006

The Micro, Small and Medium Enterprises Development (MSMED) Act, 2006 seeks to facilitate promotion and development and enhancing competitiveness of these enterprises. It provides the first-ever legal framework for recognition of the concept of “enterprise” (comprising both manufacturing and services) and integrating the three tiers of these enterprises, namely, micro, small and medium. Apart from clear and more progressive classification of each category of enterprises, particularly small, the Act provides for a statutory consultative mechanism at the national level with wide representation of all sections of stakeholders, particularly the three classes of enterprises; and with a wide range of advisory functions. Establishment of specific Funds for the promotion, development and enhancing competitiveness of these enterprises, notification of schemes/programmes for this purpose, progressive credit policies and practices, preference in Government procurements to products and services of the micro and small enterprises, more effective mechanisms for mitigating the problems of delayed payments to micro and small enterprises and simplification of the process of closure of business by all three categories of enterprises are some of the other features of this legislation.

3.1 National Manufacturing Competitiveness Programme (NMCP)

The Government with an objective to support the manufacturing sector, particularly the Small and Medium Enterprises (SMEs) in their endeavour to become competitive, announced in 2005-06 formulation of “National Competitiveness Programme” (NMCP) The design of the scheme was to be worked out by the National Manufacturing Competitiveness Council (NMCC) in consultation with the industry”.

Accordingly, the five year NMCP, as finalised by NMCC was accepted by the Government and announced for implementation in the Budget 2006-07, which comprised of ten component schemes, which, inter alia, include the schemes for Application of Lean Manufacturing, Design Clinic, Promotion of ICT in manufacturing sector, Setting up Mini-Tool Rooms, Technology & Quality Management support for SMEs, Entrepreneurial & Management Development of SMEs, Encouragement of Quality Management standards and Quality Technology Tools, National campaign for investment in Intellectual Property, SMEs & Technology Up-gradation Activities and Marketing Support/Assistance to SMEs. Its implementation will be in the PPP mode.
3.2 Package For Promotion Of Micro And Small Enterprises (MSEs)

The micro and small enterprises (MSEs) have a vital role in the socio-economic development. Nearly 39 per cent of the gross manufacturing output and 34 per cent of the exports is from SMEs. Segment provided gainful employment to 29.5 million people. In view of its employment generating capability, the National Common Minimum Programme of the Government describes the small scale industries as “the most employment-intensive segment”. This segment is next to agriculture as employment provider. The Government is also conscious of the challenges and opportunities that the MSEs face in wake of the fast changing global economic scenario. Accordingly, in order to assist the MSEs in fully harnessing their potential by enhancing their competitiveness to face the challenges of stiff competition (both in the domestic and global market) and in availing opportunities generated by trade liberalization, the Government in its NCMP declared that a “major promotional package” will be announced for this segment to provide full support in the areas of credit, technological up-gradation, marketing and infrastructure up-gradation in major industrial infrastructure.

In fulfilment of the assurance in the NCMP, the package has been formulated which, inter alia, include issues concerning (i) legislative back up; (ii) credit support; (iii) fiscal measures; (iv) support for cluster based development; (v) technological and quality up-gradation support; (vi) marketing support; (vii) support for entrepreneurial and managerial development; (viii) empowerment of women owned enterprises; (ix) strengthening of Prime Minister’s Rozgar Yajana and (x) strengthening of data base for MSME Sector.

3.3 Reservation/De-Reservation of Products for Manufacture in the Small Scale Sector

The Policy of Reservation of Products for exclusive manufacture in SSI was started in 1967. The objective of Reservation was Socio-economic development, by way of development and promotion of small units all over the country to meet the challenges of regional industrial imbalances, employment generation through self-employment ventures, increased productivity, etc. The objective of de-reservation was for providing opportunities for technological upgradation, promotion of exports and economies of scale, in order to encourage modernisation and enhance the competitiveness of SSIs, in view of the liberalisation and globalisation of the economy.

Items were reserved/de-reserved in accordance with Section 29(B) of the Industries (Development & Regulation) Act, 1951, which, inter alia, provides for the constitution of an Advisory Committee under the chairmanship of the Secretary (SSI), with the Secretary (Department of Industrial Policy and Promotion), the Secretary (Commerce), the Advisor (VSI) of the Planning Commission and the Additional Secretary & Development Commissioner (SSI) as Member-Secretary. The decisions are taken by the Government after considering the recommendations of the Advisory Committee, which has so far met 26 times. The Advisory Committee makes its recommendations on the basis of the laid down procedure in the I(D&R) Act, 1951 which relates to the economy of scale, the level of employment, the possibility of encouraging and diffusing entrepreneurship in industry, the prevention of concentration of
economic power to the detriment of the common interest and any other issue which the Committee may think fit.

This committee has met 26 times, so far, the last meeting of the committee having been held on 24 October 2006. During the year 2006-07, 180 items reserved for manufacture in small scale industries have been de-reserved. As on date there are 326 items reserved for exclusive manufacture in small scale sector.

3.4 National Commission on Enterprises Unorganised Sector.

Set-up of Pilot Projects for Growth Poles:

The Commission has already initiated the setting up of 5 Pilot Projects in Chattisgarh, Rajasthan, Kerala, West Bengal and Uttaranchal. The DPRs are likely to be finalized in 2007-08 and recommendations of the Commission likely to be submitted to Govt. for implementation.

3.5 National small Industries Corporations

The targets, set in the outcome budget for the year 2006-07 have been further distributed to the Branch Offices of NSIC. Monitoring of the progress on each scheme is being done at Head Office level on monthly basis. The progress on various schemes is also being reported to Ministry of SSI on monthly basis. The corporation has adopted the role of facilitator. The various measures undertaken by NSIC to improve its operational performance resulted in the Corporation’s achieving operating profit in the year 2005-06 after five years of continuance losses.

Further, corporation has taken some new initiatives in the recent past, which inter-alia include:

3.5.1 Insurance of Export Credit for small enterprises under strategic alliance between NSIC and ECGC:

NSIC has entered, recently, into an arrangement with Export Credit Guarantee Corporation of India Ltd. (ECGC) for facilitating small enterprises to insure their export credits. Small enterprises would be helped in insuring their export credits through any office of the Corporation, located all over the country. This arrangement shall strengthen promotion of exports from small enterprises.

3.5.2 Reaching out to Small Enterprises

For the purpose of reaching out to the small enterprises, NSIC, during the year 2006-07, signed MoUs with various industry associations located all over the country. The details / information about the schemes of the Corporation is being disseminated through the offices of the industry associations. This arrangement with the industry association / federation shall facilitate small enterprises in getting the services of the Corporation at their doorstep.

3.5.3 Establishment of Business - Incubator

NSIC has set up a Technology Business Incubator for the IT sector in the premises of NSIC-Technical Service Centre at Okhla, New Delhi. Infrastructure facilities like ready to move in
space, hardware, software etc. have been provided in the IT incubator. These facilities are available to the IT Incubator occupants, which include first generation entrepreneurs, start-up entrepreneurs having viable business project, individuals aspiring to venture into new projects. Once the IT incubates’ projects are ready for commercialization, the marketing services, legal services, advisory services are also provided to them.

NSIC is also setting up an Incubator for Enterprise Establishment at Okhla, wherein projects depicting appropriate technology for small entrepreneurs would be displayed in working condition. This would provide an exposure to the new entrepreneurs desirous of setting up projects in the country.

The prospective entrepreneurs would also get practical training on the machineries. The delegates from different developing countries, visits NSIC, would also get live demonstration of the projects that they are interested in sourcing from India.

3.5.4 New infrastructure projects to facilitate SMEs in marketing their products

NSIC is establishing a Marketing Development-cum-Business Park at Okhla, New Delhi, New Delhi and also developing an Exhibition-cum-Marketing Development Business Park at Hyderabad. A Laghu Udyog Mart is also being set up at Okhla, New Delhi by utilizing the available space and erecting sufficient number of hangers for exhibition purposes.

After completion of these projects, adequate infrastructure facilities shall be provided to the micro, small & medium enterprises at economical rates. This will help them in enhancing their marketing avenues by way of capturing new markets and expanding existing market.
## CHAPTER IV: Review of past performance

|   | Credit Linked Capital Subsidy for Technology Upgradation | Technological Upgradation of SSI units | 800 SSI units. | 701 SSI units. | On going scheme | With the upward revision in the ceiling on loan amount and rate of capital subsidy under the CLCSS, the average loan size has gone up. Hence the capital subsidy disburses per unit was higher. Thus, while the number of unites benefited were marginally less the target, the financial performance in term of aggregate subsidy disbursed was higher than originally budgeted under the scheme. An amount of Rs.
7.94 had been re-appropriated for meeting the additional requirement under the CLCSS.

Chapter IV - (NCEUS) - Review of Past performance for the Year 2005-06 and from 1/4/06 to 31/01/07.

During the year 2005-06, out of total actual expenditure, Rs. 74 lakhs has been incurred by the Commission on Professional Services for reviewing the status of Unorganised Sector in India and identifying the constraints being faced by the Enterprises.

The Commission has submitted Report and Recommendation on National Policy on urban street vendors to the Hon’ble Minister of state for Urban Employment and Poverty Alleviation on 05/05/06.

The Commission has also submitted a report on Social Security for Unorganised Workers to the Hon’ble Prime Minister on 16/05/06.

During the period 1/04/06 to 31/01/07, actual expenditure of Rs. 1.58 crores incurred on Professional Services. First installment of grants has been released to 5 State Govts. viz. Rajasthan, Uttaranchal, Kerala, West Bengal and Chhattisgarh for Detailed Project Reports for Growth Pole. Inception reports from Rajasthan & Kerala region have been received and examined by technical expert groups.

The Commission is in consultation with other State Govts. also to ascertain the constraints being faced by Unorganised Sectors and to make appropriate recommendations.

Chapter VI

Review of Performance of Autonomous Organisations

Ministry of SSI has established 3 National Entrepreneurship Development Institutes, namely, the National Institute of Small Industry Extension Training (NISIET) at Hyderabad; the National Institute for Entrepreneurship and Small Business Development (NIESBUD) at Noida; and the Indian Institute of Entrepreneurship (IIE) at Guwahati as autonomous societies. These institutes are engaged in development of training modules, undertaking research and training and providing consultancy services for entrepreneurship development in the micro and small enterprises.

The working of these institutes is given in Chapter-I. Physical and financial performances of the 3 national Entrepreneurship Development Institutes for the year 2005-06 and 2006-07 (April-December, 2006) is given in Chapter-IV. Projections for 2007-08 are given in Chapter-II of the Outcome Budget 2007-08.

Review of performance of the autonomous bodies under the administrative control of Office of DC(SSI) are being done by their Governing Councils regularly and all of them have shown improvement over the years. The details are enclosed.
## Performance of Autonomous Institutions (Upto Dec’06)
